PREPARATION

Note taking apps
Apps that let you record and organize your thoughts online.

Mental maps
Get your ideas in order, link concepts and build visual representations.

Planners
Agendas, digital calendars and project management platforms.

Concentrate
Apps designed to increase your productivity and get rid of distractions.

SEARCHING FOR INFORMATION

Platforms offered by the Library
Specialist subscription content for different fields of study, made available to UOC students.

Academic search tools
Free search engines that enable you to locate reliable and authoritative information in one single search.

Keeping up to date
You can stay up to date on whatever topic interests you using RSS readers, alerts and news aggregators.

WRITE-UP

Text editors
There are various text processors which you can use for writing up your project and are freely available.

Language resources
Tools to help you resolve doubts about spelling, grammar and word choices.

Cite other works correctly
Bibliographic managers, automatic citation tools and guides showing you how to cite according to the ISO, APA or Vancouver criteria.

PRESENTATIONS AND DEFENCE

Recording software
Apps to practise and record your presentations, helping to conquer the fear of speaking to an audience.

Picture archives
Photos and illustrations that you can use in your projects, available under Creative Commons licences and in the public domain.

Graphics tools
Free software that you can use to make infographics, edit pictures and create attractive presentations.
